
ARENAplus

ARENAplus is a highly-effective anti-slip coating. Applied to the surfaces of trays for kitchen pull-outs and corner carousels, it stops stored items from slipping when the units are opened or shut.

The coating stops contents from rattling and minimizes the risk of pots and pans leaving score marks on surfaces.

ARENAplus is a transparent surface coating that is applied to the trays in a special process.

The coating meets all LGA* criteria for use in kitchens:

- Easy to clean and care for
- Safe for food
- Durable anti-slip effect
- Moistureproof
- UV resistance
- Anti-static properties

Care instructions for surfaces with ARENAplus anti-slip coating

Wipe surfaces with a damp, lint-free cloth.

Dirt can be removed with dish washing detergent, or a mild cleaning fluid, diluted with water.

Do not use:

- Aggressive cleaning agents
- Abrasive cleaning agents
- Solvents
